GRAND REVIVAL WORK

Evangelist Naylor Greeted by Large Audiences.

SWEET SINGING IS A FEATURE

If You Have Not Been In Attendance at the Methodist Protestant Church, Then Have You Missed a Golden Opportunity. Meetings Increasing In Interest.

Have you listened to Evangelist Naylor, of England, as he proclaims gospel truth and strikes doughty blows against sin and evil in every form? Have you visited the Methodist Protestant church, Fifth street, and listened to the sweet singing, as evangelist and choir make melody in the service of the Master? Have you heard the evangelist coaching the large audience and arousing them from their lethargy and silence, as they sit in their pews, finally prevailing upon them taking part in the songs and melodies, until the walls echo with the music engendered in the heart and voiced by human lips?

Evangelist Naylor seems destined to accomplish good, in the name of the Master, in East Liverpool. He is intensely in earnest and fully impresses his hearers with this fact. At times he inclines strongly to the dramatic, and some few people find fault with this feature; but they are of the class who are searching for faults or foibles; the class which, as a rule, simply attend meetings for the purpose of criticism; the class which is always in search of "bones," and thus miss the rich and toothsome and sustaining meat.

One of the grand features of Naylor's work is his absolute fearlessness. He calls sin sin, and attacks it whenever and wherever he finds it, in pulpit or pew, among rich or poor, high or low. He despises sham, and exposes it whenever it confronts him. He is an absolute foe of the liquor traffic, denouncing, in scathing terms, those interested therein, directly or indirectly, be he pompous distiller, bloated brewer, suave and courteous merchant, professional or business man, preacher or layman, even embracing the PROFESSING Christian who rents his building or a part thereof to the saloonist who deals out liquid death and damnation.

Last night the topic was, "And the Door Was Shut," part of the tenth verse of the twenty-fifth chapter of Matthew. The evangelist urged upon his hearers the absolute necessity of repentance, and represented this feature as a door, which the sinner, in order to be saved, must enter, stripped of all sins and subterfuges. Then comes a door called "Pardon," this door standing wide open just as soon as the repentant sinner complies with the conditions. Then the evangelist gave a beautiful description of the door known as "Mercy." By Adam's fall, sin came into the world, and justice barred the door of mercy. Mercy, loving and compassionate, came down to earth and attempted to loosen the bolts and bars of this closed door, in order that humanity might be saved; but Justice grasped her wrist as she worked and forbade her to perform her intense desire. Mercy pleaded, oh how piteously, but stern Justice would not relent, telling her that before those bolts and bars could be removed, an awful atonement must be made. Mercy, in her intense longing for the salvation of immortal souls, declared that the atonement should be made. Then came a gentle stranger and commanded Justice, with his flaming sword, to follow him to Golgotha, and there bared his breast and commanded Justice to strike, and the awful sword was sent to the heart of that loving stranger, and its heat quenched in His blood, and Mercy threw wide open the door. The first to enter the beautiful door was the thief on the cross, and since then millions have entered therein, amid songs and shouts of praise and rejoicing to Him who hath loved us and given Himself for us.

The afternoon meetings are being held at 3 o'clock, in the main room. They are said to be intensely interesting to professing Christians. Meeting tonight as usual.

A VOTER SPEAKS.

He Cites His Knowledge of the Life of A. H. McCoy.

EDITOR NEWS REVIEW.—A. H. McCoy needs no commendation at my hands. He is well known all over this section. I know him well, admire him for his sturdy manhood, honesty and genuine Republicanism, and especially admire and respect him for his absolute truthfulness. I do not believe that the working men and mechanics have a better friend in all this nation, and he will do for them, when occasion offers, just that which he promises, as the dirt of political work has never tarnished his

life. When he says he will stand by McKinley and his administration, he means just what he says. I have been approached by his opponents, and they have urged that he would work in state politics in opposition to McKinley and his wishes, and on this statement, knowing that I am for McKinley first, last and all the time, they have urged me to vote and work with them. Further, I have known many of my personal friends to be approached in the same manner, and we have met and discussed this phase of the question very earnestly, and I was delighted beyond measure when I read the article in the NEWS REVIEW yesterday, headed "McCoy with McKinley." A. H. McCoy's word will be taken against that of a legion of the average politicians of the land, and his promise in this particular will make him votes on every hand. I believe that he will be a winner, despite the cunning and trickery arrayed against him. One ground for my belief rests in the fact that, since your issue of yesterday, every one of my friends, referred to above, are backing McCoy all the way through, and will voice the same sentiment at the polls. Let me give you a word of warning. Sound the alarm. Let the fact be made known that trickery will be attempted at the coming Republican primary. The opponents of A. H. McCoy are cunning and unscrupulous, and you described the matter to a nicety yesterday when you echoed their cry of "anything to beat McCoy," even to casting aside the legitimate claim of Columbiana county to the senatorial position, and entering into a combination to have it go elsewhere.

McKINLEYITE.

THE MCKINLEY CAR.

It Will Be Beautifully Decorated and Draped.

President-elect McKinley's car, to be occupied by him on his trip to Washington for the inauguration, will be a thing of beauty and the handsomest decorated car that was ever sent out of Columbus. It is the private car of Superintendent Miller, of the Panhandle, and is now being prepared for the trip at the Columbus shops.

It is the intention to have the car not only handsomely draped, but also decorate the interior with the loveliest of bright cut flowers and plants. Tuesday afternoon Superintendent Miller received from Miami, Fla., a box of plants and ferns, donated by Eblevin & Haynes, of that city, to be used in the decorations.

It contains 12 large air plants, 24 coconut palms and 12 common palms. The plants are in a perfect state of preservation, and will be sent to the shops Tuesday afternoon, when they will be placed in position.

MUCH ADO ABOUT NOTHING.

The Town Clock Is Only a Minute Too Fast.

A local paper devoted a considerable portion of its space the other evening to discussing the time as indicated by the clock at Central building and in making itself ridiculous. Janitor Albright laughed heartily when mentioning the matter, and said he always aimed to keep the clock about half a minute fast, a custom closely followed in many places. It has not been set since early in the winter, but every day or two the time is compared with the Western Union clock at the First National bank. When the last comparison was made the tower clock was just one minute fast.

THIS MAN MUST BE GOOD

Or His Neighbors Will Give Him a Little Justice.

A Ravine street resident, who has been married long enough to know better, has incurred the displeasure of his neighbors because he persists in whipping his wife. Not long ago he struck her with a poker, and he has frequently compelled her to wear a highly ornamented face. The matter was reported to the police, but nothing was done, and neighbors decided to interfere. They cheerfully say that if the fellow does not give his wife better attention, and if he ever illtreats her again and it comes to their knowledge, the newspapers will have a story of unusual interest.

PLENTY OF MEASLES.

No Less Than Twenty-Five Cases of the Disease In Town.

Officer Burgess estimates that there are no less than 25 cases of measles in the city. The disease appeared a short time ago, and has been steadily increasing. Wellsville has been suffering for several months, and the number of people who have been ill with it in that place is legion. The disease is not quarantined, but when it appears in a family all the children are compelled to leave school, and other necessary precautions are taken. None of the cases reported are believed to be dangerous.

DOCTOR ADAMS GUILTY

That's What a Stark County Court Said.

A VIOLATION OF THE LICENSE LAW

The Indictment Was Returned Last December—Sentence Has Not Been Passed, and the Case Will Likely Go to a Higher Court.

Guilty as charged in the indictment was the verdict of the jury in the case of Ohio against Dr. Lucy Harkey-Adams, tried in Stark county common pleas court.

The legislature at its last session passed a law requiring all physicians to take out a state certificate and file it with the probate court of the county in which he or she intended to practice the profession. The last grand jury of Stark county returned an indictment against Dr. Lucy Harkey-Adams for a violation of the law. The offense is alleged to have been committed in Alliance last December by Doctor Adams, a traveling specialist of Akron, who comes here regularly and has many patients in this place. The case was put on hearing before Judge McCarty and a jury and from the hour of opening court to about 3:30 o'clock it was bitterly contested. Doctor Adams went before the clerk of courts and gave bond in the sum of \$300 for her appearance from day to day until sentence is imposed or an appeal taken to the circuit court. It is understood that the case will be carried to the higher courts on the question of constitutionality of the law.

THE FLOOD IS OVER.

The River Is Falling and All Danger Is Gone.

The flood is over, and all danger from the river has gone until it comes again with another rise. The water fell rapidly last night, and within a few hours had dropped several feet. During the night the rate at which it had started to recede decreased somewhat, but at 9 o'clock this morning it was down five feet, and people disturbed by the flood moved back into their dampened abodes. In Jethro there was a vast deal of inconvenience, and it was found necessary to clean a number of houses after the flood subsided. Cars were moving on the street car line last night, but the trestle near Wellsville was so badly twisted that passengers were transferred. The track was washed in places, but repairs are being made as rapidly as possible.

Late this afternoon the river was falling about 10 inches an hour. It has already gone down about 12 feet.

PAID UNDER PROTEST.

Julius Johnson Had Reasons, but the Mayor Was Heartless.

Julius Johnson, the man fined in police court yesterday for riding on a Cleveland and Pittsburgh freight train, had a good story to tell Mayor Gilbert, but that official would do nothing but enforce the law. Johnson is the traveling representative of a New York commercial house, and after transacting his business in Wellsville found he must come to Liverpool. When he learned the flood had cut off communication by the street railway, and he could not get a passenger train on the other road until it was too late to answer his purpose, he did what he believed to be the next best thing and boarded a freight. He was arrested by Officer Moore, and the ride cost him something like \$7. He paid it under protest.

COLD CARS.

Councilmen Believe There Should Be a Change.

Although the winter is almost over there is still much complaint because of cold street cars, and the attention of Chief Johnson has been called to the matter by members of council. Councilman Stewart asserts that he asked a motorman to turn on the current in the heaters of the car in which he was riding, but was informed that it was against orders, and the man who did it on a pleasant day would be discharged. The chief said he interviewed Mr. Andrews, who placed the blame on the heaters. Mr. Parinton believes the company should be notified to keep the temperature of all cars between 50 and 60 degrees, and the police should see the order was enforced.

A POTTERY IN ALABAMA.

It Is a New Enterprise Conducted by Local Men.

Many persons in the city will be interested in knowing that Fort Payne, Ala., has a pottery, or will have as soon as the buildings recently purchased can be converted into a plant. The Journal

of that place, says a force of men are now employed making the necessary changes, and within a short time the concern will be ready for business. There is not such a plant south of the Ohio, the paper continues, and there is much demand for such products. Good clay is found in close proximity, and can be secured at a nominal figure. The pottery will start with a force of 20 employees.

THE DOCTOR'S STATEMENT.

He Has a Word About East End Opposition.

Doctor Marshall, in speaking of the sayings of "Property Holders" in the NEWS REVIEW of yesterday, said today: "The first who came to see me were two parties who claimed they had been sent by T. J. Andrews and the other represented himself, but no one of the three ever suggested that it wouldn't be to the best advantage of the city, but it would be detrimental to their particular locality and their private interests. I refused to be a tool in the hands of any person or persons. This was a matter of principle, absolutely based upon the requirements of the general franchise passed absolutely and entirely to regulate this Southside street railway company, and it states that the grant shall not be for a longer period than 25 years."

DAUGHERTY-DE TEMPLE.

The Wedding Was Solemnized This Morning.

William J. Daugherty and Miss Gerie De Temple were married this morning at 9 o'clock in St. Aloysius church by Reverend Father Smythe, a large number of friends and relatives being in attendance. After the ceremony a wedding breakfast was served at the residence of the bride's parents in Jefferson street. The newly-wedded couple later left for the east, and upon their return, will occupy a pleasant home in Wheeling. Their many friends extend to them wishes for all the happiness they can have.

FOR FOUR HOURS

Wheelmen Will Ride at the Fifth Street Rink.

The football boys who so successfully conducted the race at the rink last Saturday and Monday have arranged for another to take place next Saturday night. The start will be made at 7 o'clock, and the wheelmen will ride for four hours. It is expected that eight riders will start, York, Frederick, Sinclair and Rex having already entered. Thomas will be in if his knee is by that time well. The track is being banked today under the guiding care of Billy Rex, and when completed will be well suited for fast riding.

IN WATER.

Passenger Trains Moved Slowly Near Brilliant.

The Cleveland and Pittsburg was not seriously hampered by the flood. The tracks in the "Narrows," above Port Homer, were closely watched yesterday, owing to the embankment having slipped toward the river. Trains passed over the place very slowly, but no delay was caused.

The water got over the tracks at George run, between Mingo and Brilliant, and trains passed through very slowly. The tracks were badly washed. At one time the water was 15 inches deep on the line.

WE GIVE IT UP.

Perhaps You Had Better Leave It to the Candidate.

EDITOR NEWS REVIEW:—Please inform your readers how many testimonials it requires to make a character. This inquiry is prompted by the statement, in the Crisis of Feb. 24, by one of the candidates for state senator, that he had 36 testimonials. I once knew a woman who had 56 testimonials, and no character at all. I also knew a calf that drew milk from two cows, and contrary to all expectation it was the smallest and dirtiest calf of the whole lot.

A REPUBLICAN VOTER.

TO TALK MEMBERSHIP.

The Committee Will Meet With Secretary Charles.

The special membership committee of the Young Men's Christian association has been called to meet this evening, and the matter of securing the 400 members will be further discussed. The big board in the association building this morning showed 139 members, and there are others in sight, but the names are not yet on the list. The meeting this evening is of the utmost importance, and a full attendance is desired.

Business Changes.

A. G. Minchert yesterday assumed control of the novelty store at Youngstown, and W. A. Hill returned this morning. J. M. Ferguson will move to the city early next week.

TWO MEN IN A BOAT

They Came Down Little Beaver From Lisbon.

IT WAS A DANGEROUS TRIP

Charley Croft and a Companion Took Advantage of the High Water and Had a Ride—Experiences by the Dozen Marked the Journey—They Escaped Injury.

Two Lisbon boys yesterday succeeded in traversing the Little Beaver from Lisbon to Smith's Ferry in a boat, and today, although sore and tired, they are proud of the achievement.

The stream was much higher than usual when Charley Croft and a companion started from the county seat in a small boat at 8 o'clock yesterday morning. The flood, however, aided them materially, and they made very good time. In places the usual riffles were increased to raging rapids, and the boys passed through in safety only by the exercise of the greatest care. They were in many places drawn over miniature falls, and their boat a number of times was in danger of going down. All their skill was necessary to keep the little craft from being hurled against the big rocks so often found in the stream, and at times they were whirled around by the current in a manner well calculated to result in disaster. They arrived at the mouth of the river at 4 o'clock in the afternoon, and as one of them expressed it looked and felt as though they had passed through half a dozen thrashing machines. They believe they are the first persons to make the trip from Lisbon to the Ferry by boat. The young men were calling on friends in the city and Wellsville last night.

CULVERT CONTROVERSY.

There Is Yet Some Discussion and Opposition.

The Eighth street culvert matter will not consent to hide itself away from public gaze, and it continues to appear whenever a few of the interested parties happen to be gathered together. A well known contractor said that the written report of the committee would be awaited with a great deal of interest, and the action of council in accepting or rejecting it would be closely watched. There were some things, he believed, which might be made very much plainer than they happen to be at present.

INCREASING ATTENDANCE.

Many People Patronize the Public Library.

The directors and Miss McLane, the librarian, are much encouraged because of increased interest in the public library. The attendance in the reading room each evening is gratifying, and the number of books taken out is constantly growing larger. The library, it is believed, has reached that point where it only needs the united efforts of all who are interested to make it successful. Books are always in demand, and if you have some to spare send them to the librarian.

NEXT MONDAY

The Board of the Christian Church Will Decide on a Site.

The official board of the Christian church will meet next Monday evening, at which time the site for the new church will be selected. They have a number of pieces of land in view, but some members of the board look with particular favor upon a lot which they believe will meet the demands of the congregation. They will give out nothing for publication. The soliciting committee have made excellent progress, and have a gratifying amount in subscriptions.

A NEW LODGE.

It Will Be Instituted In Akron by Deputy Buxton.

Deputy George Buxton went to Akron this morning, where he will tonight institute a new lodge of Elks. The list of members contains the names of 30 of Akron's best known business and professional men, and will begin its life under unusually happy conditions. Mr. Buxton was accompanied by a number of members of the order from this city.

Andrews and the other represented himself, but no one of the three ever suggested that it wouldn't be to the best advantage of the city, but it would be detrimental to their particular locality and their private interests. I refused to be a tool in the hands of any person or persons. This was a matter of principle, absolutely based upon the requirements of the general franchise passed absolutely and entirely to regulate this Southside street railway company, and it states that the grant shall not be for a longer period than 25 years."

DAUGHERTY-DE TEMPLE.

The Wedding Was Solemnized This Morning.

William J. Daugherty and Miss Gertrude Temple were married this morning at 9 o'clock in St. Aloysius church by Reverend Father Smythe, a large number of friends and relatives being in attendance. After the ceremony a wedding breakfast was served at the residence of the bride's parents in Jefferson street. The newly-wedded couple later left for the east, and, upon their return, will occupy a pleasant home in Wheeling. Their many friends extend to them wishes for all the happiness they can have.

FOR FOUR HOURS

Wheelmen Will Ride at the Fifth Street Rink.

The football boys who so successfully conducted the race at the rink last Saturday and Monday have arranged for another to take place next Saturday night. The start will be made at 7 o'clock, and the wheelmen will ride for four hours. It is expected that eight riders will start, York, Frederick, Sinclair and Rex having already entered. Thomas will be in if his knee is by that time well. The track is being banked today under the guiding care of Billy Rex, and when completed will be well suited for fast riding.

IN WATER.

Passenger Trains Moved Slowly Near Brilliant.

The Cleveland and Pittsburgh was not seriously hampered by the flood. The tracks in the "Narrows," above Port Homer, were closely watched yesterday, owing to the embankment having slipped toward the river. Trains passed over the place very slowly, but no delay was caused.

The water got over the tracks at George run, between Mingo and Brilliant, and trains passed through very slowly. The tracks were badly washed. At one time the water was 15 inches deep on the line.

WE GIVE IT UP.

Perhaps You Had Better Leave It to the Candidate.

EDITOR NEWS REVIEW:—Please inform your readers how many testimonials it requires to make a character. This inquiry is prompted by the statement, in the Crisis of Feb. 24, by one of the candidates for state senator, that he had 36 testimonials. I once knew a woman who had 56 testimonials, and a character at all. I also knew a calf that drew milk from two cows, and contrary to all expectation it was the smallest and dirtiest calf of the whole lot. A REPUBLICAN VOTER.

TO TALK MEMBERSHIP.

The Committee Will Meet With Secretary Charles.

The special membership committee of the Young Men's Christian association has been called to meet this evening, and the matter of securing the 400 members will be further discussed. The big board in the association building this morning showed 139 members, and there are others in sight. The meeting is not yet on the list. The meeting this evening is of the utmost importance, and a full attendance is desired.

Business Changes.

A. G. Minehart yesterday assumed control of the novelty store at Youngstown, and W. A. Hill returned this morning. J. M. Ferguson will move to the city early next week.

TWO MEN IN A BOAT

They Came Down Little Beaver From Lisbon.

IT WAS A DANGEROUS TRIP

Charley Croft and a Companion Took Advantage of the High Water and Had a Ride—Experiences by the Dozen Marked the Journey—They Escaped Injury.

Two Lisbon boys yesterday succeeded in traversing the Little Beaver from Lisbon to Smith's Ferry in a boat, and today, although sore and tired, they are proud of the achievement.

The stream was much higher than usual when Charley Croft and a companion started from the county seat in a small boat at 8 o'clock yesterday morning. The flood, however, aided them materially, and they made very good time. In places the usual riffles were increased to raging rapids, and the boys passed through in safety only by the exercise of the greatest care. They were in many places drawn over miniature falls, and their boat a number of times was in danger of going down. All their skill was necessary to keep the little craft from being hurled against the big rocks so often found in the stream, and at times they were whirled around by the current in a manner well calculated to result in disaster. They arrived at the mouth of the river at 4 o'clock in the afternoon, and as one of them expressed it looked and felt as though they had passed through half a dozen thrashing machines. They believe they are the first persons to make the trip from Lisbon to the Ferry by boat. The young men were calling on friends in the city and Wellsville last night.

CULVERT CONTROVERSY.

There Is Yet Some Discussion and Opposition.

The Eighth street culvert matter will not consent to hide itself away from public gaze, and it continues to appear whenever a few of the interested parties happen to be gathered together. A well known contractor said that the written report of the committee would be awaited with a great deal of interest, and the action of council in accepting or rejecting it would be closely watched. There were some things, he believed, which might be made very much plainer than they happen to be at present.

INCREASING ATTENDANCE.

Many People Patronize the Public Library.

The directors and Miss McLane, the librarian, are much encouraged because of increased interest in the public library. The attendance in the reading room each evening is gratifying, and the number of books taken out is constantly growing larger. The library, it is believed, has reached that point where it only needs the united efforts of all who are interested to make it successful. Books are always in demand, and if you have some to spare send them to the librarian.

NEXT MONDAY

The Board of the Christian Church Will Decide on a Site.

The official board of the Christian church will meet next Monday evening, at which time the site for the new church will be selected. They have a number of pieces of land in view, but some members of the board look with particular favor upon a lot which they believe will meet the demands of the congregation. They will give out nothing for publication. The soliciting committee have made excellent progress, and have a gratifying amount in subscriptions.

EAST LIVERPOOL, O., THURSDAY, FEB. 25.

Good men in council means good city government. In no other way can it be obtained. If this town would have municipal affairs conducted in the right way it must allow the right men to make its laws.

GENERAL WEYLER and the Spanish ministry will some day move one step too far. They depend now upon the friendship of Mr. Cleveland's administration, but when that administration is out of the way they must change their tune toward Americans in Cuba.

SOME of the fellows, who four years ago marched around singing four more years of Grover, are today gaily humming to themselves something about only one more week of that same gentleman and his crowd. Time works wonders in politics, and not a long time either.

THE Republican party promised to do all in its power looking to an international monetary conference, and there should be no fear that the promise will not be carried out. But the great question is the tariff. Let that be settled before any other matter of importance is taken up.

UPON the people will rest the responsibility if the city will next year be compelled to endure the extravagancies of an untied and inexperienced council. Will the intelligence of East Liverpool allow the election of men whose abilities cannot permit a careful, economic administration?

WHILE there may be some excuse for the darts directed at congress because of the enormous amounts born by the appropriation bills, there can be no unusual cause for complaint. It costs money to run this government, and in spending an amount so great there can not but be some errors.

THE speaker of the Kansas House suggests that each member appoint his wife his private secretary in order that he may draw the \$3 a day allowed for that position. What the hypocritical Kansas Populists can't think of, in the way of making money at the expense of the people, is not worth considering.

A LESSON TO DEMOCRACY. If the Democrats ever take heed from experience they will find a valued lesson in the developments since Governor Bushnell announced his intention of sending Mr. Hanna to the senate. Each day only serves to show that the Republican party is not now divided, nor is there any great danger of it reaching that point. On the other hand it will place its ticket before the people with the knowledge that every candidate will be supported and sustained by a full vote of the party. Those Democrats who depended on feeling among their opponents for strength at the polls will be disappointed.

STATE SENATOR. What can the opponents of Hon. A. H. McCoy next resort to? He is head and shoulders above the man of their choice, in any and every respect. He is an honest and trustworthy citizen. He is a Republican of Republicans. He has been, and will be an indefatigable worker for the best interests of the Republican party. His record as a legislator is unimpeachable. He is a pronounced McKinley man, and will be in absolute harmony with the president elect and the incoming administration. In a nut shell, he is a clean politician, honest and true, devoted to the best interests of the party of the people, and will stand by his promises and pledges to his constituency. Vote for A. H. McCoy and clean politics and the supremacy of the Republican party in this section. He is in the right, has truth, honor, probity, integrity and manhood back of him, and will be a credit to the district.

ORE PRODUCERS' MEETING.

Rockefeller Makes an Effort to Retain the Pool.

CLEVELAND, Feb. 25.—The gist of the iron ore producers' meeting has been made known. The Rockefeller interests, represented by F. T. Gates of New York, urged the continuance of the association by every means and argument at his command.

Mr. Gates admitted that a continuance of the association would of necessity limit the output of the Rockefeller interests, but he agreed that such a procedure would be best for the interests of the producers. The Minnesota Iron company refused to meet the proposition of Mr. Gates, but at the same time did not especially demand that the pool dissolve.

The Norris mine representatives were in favor of making a low rate, regardless of the Mesabi interests. The Rockefeller interests will be squarely in favor of maintaining the pool.

MCKINLEY FAIRLY WELL.

The Newspaper Correspondents in Canton Given a Banquet.

CANTON, O., Feb. 25.—Dr. Phillips reports that Major McKinley has not the slightest trace of fever from the grip. He took a drive yesterday, and also a short walk. Major McKinley thinks he will be perfectly well in a day or two, although the headache and lassitude of the grip clings to him.

The newspaper correspondents who have been in Canton the past year were tendered a banquet last night at the Harford house. Responding to invitations to be present Major McKinley and Chairman Hanna sent nice letters.

Boxwell Wants to be Speaker.

COLUMBUS, Feb. 25.—Ex-Speaker Alexander Boxwell of Warren county says that he has about decided to be a candidate for a fifth term in the legislature. In case of his election he intended that he would be a candidate for speaker. Speaker David L. Sleeper, who defeated Boxwell in the hard speakership fight of last winter, probably will not seek renomination. J. M. Allen, a young attorney, has come out as a candidate to succeed Speaker Sleeper as the representative from Athens county.

Charge Against School Commissioners.

COLUMBUS, Feb. 25.—J. W. McCarron, who was appointed as a special examiner by State Commissioner Cowan to examine into the charge that funds had been wrongfully used in the conducting of the schools in Richland township, Holmes county, has made his report. He finds the charge to be without foundation. In his report he says that the clerk and the board have been guilty of gross carelessness, and that some members of the board have been charging for their services. The commissioner has as yet taken no action.

LEE HAS NOT RESIGNED

The State Department Still Maintains a Denial.

DIFFERENCES ARE ADMITTED.

A Reliable Official Says the Consul General Favored a Sensational Move in the Closing Days of the Administration.

The Trouble Explained.

WASHINGTON, Feb. 25.—Notwithstanding the repeated statements from outside sources to the contrary, the state department officials are firm in the denial of the reported resignation of Consul General Lee.

From a reliable official source, however, the facts appear to be as follows: The consul general while in Washington last autumn did not conceal his belief that much credit might be gained for the administration about to conclude its term by making a bold stroke for Cuban freedom, at least going to the length of recognizing the belligerency of the insurgents. He did not take issue openly with the administration in

the matter, but he was not in sympathy with the policy of the administration. EMPLOYS 3,299 MORE MEN.

Duke Tells Laxow the Cigarette Trust Benefits Labor.

NEW YORK, Feb. 25.—James E. Duke, president of the American Tobacco company, when he appeared before the joint legislative committee on trusts, brought with him the labor statistics asked for by Senator Laxow. The papers show that prior to the incorporation of the American Tobacco company in 1890 the separate companies gave employment to 5,895 workers.

Today the number of employees in the employ of the company is 9,194, making an increase since the date of consolidation of 3,299 hands.

Francis B. Thurber, president of the American Grocer Publishing company, also testified. He said that aggregations of capital ought to receive encouragement, and not be subjected to unnecessary obstruction.

Combinations intelligently administered were beneficial to the public at large and to the laboring classes.

The profits of capital, he said, have been steadily decreasing, and those of organized labor steadily increasing.

"At no time," said Mr. Thurber, "could a dealer buy more than at the present time."

Mr. Thurber contended that the centralization of capital was a natural evolution of the time.

Mr. Thurber further explained to the committee the history of the benefit of centralized capital, and dwelt at some length upon the industrial revolution of such concerns as the American Sugar Refining company, to the competition of solvent and ably managed companies with perhaps a fifth of the capital represented by the corporations named.

After recess Mr. Thurber was recalled and on being asked where he got the information that the American Sugar Refining company made 1/3 of a cent profit per pound, said that was the general opinion in the grocery trade for eight years past.

"How do you reconcile the figures with the fact that the company has an average dividend of 9 1/2 per cent on a capital of \$75,000,000, an extra dividend of 10 per cent and a surplus of \$2,000,000 annually?"

Mr. Thurber made a hurried calculation and contended that his figures were correct.

George D. Wheeler, a wholesale cigar dealer in Syracuse, said he had been injured by the American Tobacco company as a holder of the factors' agreement. This was brought about because he bought cigarettes of the National Cigarette company. The American Tobacco company refused to consign him cigars because he dealt with the National Cigarette company. His suspension as a factor was ordered by Secretary Josiah Brown, of the American Tobacco company, who communicated with witness by mail to that effect.

Turkey Also Told to Leave the Island.

Autonomy Proposed—The Porte Said to Be Preparing for War—The English People Very Mad.

LONDON, Feb. 25.—A dispatch to The Times from Vienna says: "The powers have decided to give Crete extensive autonomy. They will insist that the Turkish troops and administration be withdrawn as quickly as possible, while Greece will be required to evacuate the island and withdraw her ships. If she refuses the Piræus will be blockaded."

The Times in an editorial announces that it has an independent reason for stating that the foregoing is correct, and that the acute stage of the crisis is over.

The Chronicle in big type, prints a display article this morning calling on the nation to take active steps in the Cretan situation.

Says The Chronicle: "Organize, agitate and denounce the dishonor to England's flag by the association with the sultan and the coercion of Greece."

A dispatch to The Standard from Constantinople says: "It is reported that the cabinet has decided to prepare for an eventual march on Athens should Greece decline to comply with the Porte's demand and evacuate Crete."

A note to this effect will be sent to Greece in the near future. The military preparation has been completed.

"It is also stated that the minister of marine has pledged himself to have 15 ships ready a week from now."

The Athens correspondent of The Standard says that he has ascertained from a reliable source that Greece will reject the proposals of the powers.

Discontent is rapidly growing among the masses in respect to the policy of the government toward Crete. The Liberals are furious and their newspapers are making violent appeals to the passions of the people.

The concluding sentences of an article in Today are: "If the concert of Europe must be broken up to have done with the devil's work, in the name of God let it go down and be drowned in its own blood. Better war than this infamy should continue. There has been a concert of nothing but the shrieks of the dying and the tortured."

EAST LIVERPOOL, O., THURSDAY, FEB. 25.

GOOD MEN IN COUNCIL MEANS GOOD

city government. In no other way can

it be obtained. If this town would have

municipal affairs conducted in the right

way it must allow the right men to

make its laws.

GENERAL WEYLER and the Spanish

ministry will some day move one step

too far. They depend now upon the

friendship of Mr. Cleveland's adminis-

tration, but when that administration is

out of the way they must change their

tune toward Americans in Cuba.

SOME of the fellows, who four years

ago marched around singing four more

years of Grover, are today gaily

humming to themselves something

about only one more week of that same

gentleman and his crowd. Time works

wonders in politics, and not a long

time either.

THE Republican party promised to do

all in its power looking to an interna-

tional monetary conference, and there

should be no fear that the promise will

not be carried out. But the great ques-

tion is the tariff. Let that be settled

before any other matter of importance

is taken up.

UPON the people will rest the respon-

sibility if the city will next year be

compelled to endure the extravagancies

of an untried and inexperienced council.

Will the intelligence of East Liverpool

allow the election of men whose abili-

ties cannot permit a careful, economic

administration?

WHILE there may be some excuse

for the darts directed at congress be-

cause of the enormous amounts born by

the appropriation bills, there can be no

unusual cause for complaint. It costs

money to run this government, and in

spending an amount so great there can

not but be some errors.

THE speaker of the Kansas House

suggests that each member appoint his

private secretary in order that he

may draw the \$3 a day allowed for that

position. What the hypocritical Kansas

Populist can't think of, in the way of

making money at the expense of the

people, is not worth considering.

A LESSON TO DEMOCRACY.

If the Democrats ever take heed from

experience they will find a valued lesson

in the developments since Governor

Bushnell announced his intention of

sending Mr. Hanna to the senate. Each

day only serves to show that the Repu-

bligan party is not now divided, nor is

there any great danger of its reaching

that point. On the other hand it will

place its ticket before the people with

the knowledge that every candidate will

be supported and sustained by a full

vote of the party. Those Democrats who

depended on feeling among their oppo-

nents for strength at the polls will be

disappointed.

STATE SENATOR.

What can the opponents of Hon. A.

H. McCoy next resort to? He is head

and shoulders above the man of their

choice, in any and every respect. He is

an honest and trustworthy citizen. He

is a Republican of Republicans. He has

been, and is, and will be an indefatigable

worker for the best interests of the Re-

publican party. His record as a legis-

lator is unimpeachable. He is a pro-

nounced McKinley man, and will be in

absolute harmony with the president

elect and the incoming administration.

In a nut shell, he is a clean politician,

honest and true, devoted to the best in-

terests of the party of the people, and

will stand by his promises and pledges

to his constituency. Vote for A. H. McCoy

and clean politics and the supremacy

of the Republican party in this section.

He is in the right, has truth, honor, probity, integrity and

manhood back of him, and will be a

credit to the district.

ORE PRODUCERS' MEETING.

Rockefeller Makes an Effort to Retain the Pool.

CLEVELAND, Feb. 25.—The gist of the

iron ore producers' meeting has been

made known. The Rockefeller inter-

ests, represented by F. T. Gates of New

York, urged the continuance of the as-

sociation by every means and argument

at his command.

Mr. Gates admitted that a continu-

ance of the association would of ne-

cessity limit the output of the Rocke-

efeller interests, but he agreed that such

a procedure would be best for the in-

terests of the producers. The Minnesota

iron company refused to meet the pro-

position of Mr. Gates, but at the same

time did not especially demand that

the pool dissolve.

The Norrie mine representatives were

in favor of making a low rate regard-

less of the Mesaba interests. The

Rockefeller interests will be squarely in

favor of maintaining the pool.

MCKINLEY FAIRLY WELL.

The Newspaper Correspondents in Canton

Given a Banquet.

CANTON, O., Feb. 25.—Dr. Phillips re-

ports that Major McKinley has not the

slightest trace of fever from the grip.

He took a drive yesterday and also a

short walk. Major McKinley thinks

he will be perfectly well in a day or

two, although the headache and lase-

itude of the grip clings to him.

The newspaper correspondents who

have been in Canton the past year were

tendered a banquet last night at the

Hurford house. Responding to invita-

tions to be present Major McKinley

and Chairman Hanna sent nice letters.

Boxwell Wants to be Speaker.

COLUMBUS, Feb. 25.—Ex-Speaker

Alexander Boxwell of Warren county

says that he has about decided to be

a candidate for a fifth term in the legis-

lature. In case of his election he in-

timated that he would be a candidate for

speaker. Speaker David L. Sleeper,

who defeated Boxwell in the hard

speakership fight of last winter, prob-

ably will not seek re-nomination. J. M.

Allen, a young attorney, has come out

as a candidate to succeed Speaker

Sleeper as the representative from

Athens county.

Charge Against School Commissioners.

COLUMBUS, Feb. 25.—J. W. McCar-

ron, who was appointed as a special

examiner by State Commissioner

Cowan to examine into the charge that

funds had been wrongfully used in the

conducting of the schools in Richland

township, Holmes county, has made

his report. He finds the charge to be

without foundation. In his report he

says that the clerk and the board have

been guilty of gross carelessness, and

that some members of the board have

been charging for their services. The

commissioner has as yet taken no action.

Harvey Placed in Irons.

WILMINGTON, O., Feb. 25.—James

Harvey, the alleged wife murderer, be-

necessary to place him in irons. It is

up in his defense before the common

pleas court.

AUSTIN, Feb. 25.—In the house a re-

solution was introduced and referred to

Nebraska's Treasury Shortage.

LINCOLN, Neb., Feb. 25.—There is

LEE HAS NOT RESIGNED

The State Department Still

Maintains a Denial.

DIFFERENCES ARE ADMITTED.

A Reliable Official Says the Consul Gen-

eral Favoured a Sensational Move in the

Closing Days of the Administration.

The Trouble Explained.

WASHINGTON, Feb. 25.—Notwith-

standing the repeated statements from

the state department officials are firm in

the denial of the reported resignation

of Consul General Lee.

From a reliable official source, how-

ever, the facts appear to be as follows:

The consul general while in Wash-

ington last autumn did not conceal his

belief that much credit might be gained

for the administration about to con-

clude its term by making a bold stroke

for Cuban freedom, at least going to the

length of recognizing the belligerence

of the insurgents. He did not take is-

ssue openly with the administration in

the matter.

Mr. Thurber further explained to the

committee the history of the benefi-

cence of centralized capital, and dwelt

at some length upon the vulnerability

of such concerns as the American Sugar

Refining company, to the competition

of solvent and ably managed companies

with perhaps a fifth of the capital

represented by the corporation named.

After recess Mr. Thurber was recalled

and on being asked where he got the in-

formation that the American Sugar Re-

fining company made $\frac{1}{3}$ of a cent

profit per pound, said that was the gen-

eral opinion in the grocery trade for

eight years past.

"How do you reconcile the figures

with the fact that the company has an

average dividend of 9% per cent on a

capital of \$75,000,000, an extra dividend

of 10 per cent and a surplus of \$2,000,

000 annually?"

DAMAGE OF THE FLOOD.

A Million Dollars' Loss Along the Monongahela.

1,500 HOMELESS AT PORTSMOUTH.

Some Suffering in Other Towns and Cities, Especially Along the Ohio—Over 60 Feet Expected at Cincinnati—Falling Above Wheeling.

CINCINNATI, Feb. 25.—The river here has been rising steadily an inch and a half an hour, and will likely go a little over 60 feet. Everywhere in the Ohio valley above here the weather is clear and cool. Above Wheeling the Ohio river is falling at all points. In the region of the source of the flood the streams have been going down for 12 hours and the danger is past. No less than \$1,000,000 loss and damage to lumbermen and farmers is the rough estimate for the Monongahela valley.

On the Ohio there was more or less loss and damage all the way down to Portsmouth. More or less damage to some business houses was suffered in Parkersburg, Gallipolis, Huntington, Catlettsburg, Ironton, Hanging Rock, Portsmouth, Aberdeen, Maysville and several smaller towns, either in actual loss or inconvenience of moving goods. At Portsmouth alone over 1,500 persons have been driven from their homes. Much the same suffering exists in the other cities and towns mentioned, but Portsmouth is the greatest. School-houses, town hall, churches and all other available buildings are used for lodging these sufferers and public charity feeds them.

At Newport, Ky., opposite here, 150 poor families are driven from their homes, but they are well sheltered. In East Cincinnati about 100 families have been temporarily driven from their dwellings. Coney Island, an up-river summer resort, is under water deep enough to float the largest river steamer. In Ludlow, Ky., below Covington, the grounds are deep under water, and it is feared that the dyke that retains the great lake will be so softened so as to break and drain the lake when the waters go down.

The backwater in Mill creek, west of the city, has destroyed many thousand dollars' worth of garden stuff.

At Lawrenceburg, Ky., there have been fears for the safety of the big government dyke built since 1884 for the protection of that city. At Portsmouth washouts have stopped the use of two railroads—the Norfolk and Western and the Cincinnati, Portsmouth and Virginia.

Here, in Cincinnati, exposed business houses have secured themselves against further inconvenience. All railroads trains here are running from their depots, except those using the Grand Central, and they now start from Eighth street.

PITTSBURG, Feb. 25.—Devastation and ruin marks the flooded districts about the two cities and throughout the Monongahela and Ohio valleys. The cold wave added to the misery of the hundreds of families in the submerged districts who have been rendered temporarily homeless by the flood.

There was a fall of 14 degrees in about 16 hours. A heavy coating of ice has been left in all districts, as well as large deposits of mud. It is almost impossible to estimate the amount of damage which has been sustained, but conservative rivermen placed the amount at \$200,000. This amount includes the loss to wage earners who were forced to idleness by reason of the mills shutting down on account of the high water.

The public safety and charity departments of the two cities are doing everything possible to alleviate suffering. Provisions and coal have been provided for many people in the flooded districts who are unable to get away from their homes.

The Allegheny is falling at all points except Oil City and Parker's Landing, where only slight rises took place. This will not affect the stage of water in this city. The Monongahela river is falling at all points, and all danger in this city is passed for the present. There is the greatest apprehension in the Ohio valley, however, for the river is rising at all points from the Beaver dam to Cairo. At Cincinnati there is over 60 feet of water, and still rising.

STRENSVILLE, Feb. 25.—Houses along the river in the lower part of the city are flooded. The residents of Water street, in the main part of the city, are relieved to know that the water will stop within a foot of their homes. Traffic has been suspended on the Wheeling and Lake Erie for a time. The trestle below Mingo is reported floating. For a mile below Mingo there is a foot of water on the Cleveland and Pittsburgh track. At Empire no school is being held as the building is surrounded by water. At Alkana it is reported that backwater in Wills creek has flooded houses, compelling people to vacate.

CINCINNATI, Feb. 25.—Dispatches from river points show deaths resulting from the flood as follows: Pineville, Ky., two mountaineers and a revenue man drowned; Grafton, W. Va., William Tate, Baltimore and Ohio fireman, drowned; Middlesboro, Ky., James Charwell, wife and four children, drowned; Keystone, W. Va., Wade, druggist, drowned; Sparta, Ky., Chas. Holton, bank clerk, drowned; Breathitt county, Ky., Mrs. Hutzell's little daughter drowned; Bell county, Ky., two men drowned; Bluefield, W. Va., Sylvester Waters, teamster, drowned in Clear creek; Donkeyville, Ky., Jonas Tyree, drowned in Powell river.

Artist Koerner Likely to Die.

WARM WELCOME TO BRYAN.

Republicans and Democrats Greeted Him on His Visit to the House.

WASHINGTON, Feb. 25.—William Jennings Bryan, late Democratic candidate for president, received a hearty welcome on his visit to the house. He had come to the city to attend a dinner given in his honor by John R. McLean, of The Cincinnati Enquirer, and as an ex-member was entitled to the privilege of the floor. He came into the hall with Mr. McMillin of Tennessee, Mr. Maguire of California, Mr. Sulzer of New York, and ex-Congressman George Fred Williams of Massachusetts. He was immediately escorted to the cloak-room where the Democrats rushed back to meet him. After a few minutes he emerged and walked calmly down the aisle to his old seat near the center aisle. The Democrats gave him a round of hearty applause, the people in the galleries craned their necks and took up the demonstration. There were several wild shouts. He was surrounded on all sides. Many of the Republicans joined in the welcome to their old colleague.

The first was Judge Strode of Nebraska, his successor in congress. Among the others were Messrs. Hitt of Illinois, W. A. Stone of Pennsylvania, Dalzell of Pennsylvania and Dooliver of Iowa. The confusion became so great that Speaker Reed was forced to call that Speaker Reed was forced to call the house to order. After a few minutes Mr. Bryan made his way back of the rail which divides the seats from the lobby around to the speaker's rostrum, where he shook hands with the speaker. The galleries again joined in the demonstration which occurred at this juncture. Mr. Bryan soon after left the house.

M'LEAN'S BANQUET TO BRYAN.

Distinguished Republicans and Democrats There as Guests.

WASHINGTON, Feb. 25.—The banquet which brought William J. Bryan to Washington was given him last night by John R. McLean at his handsome residence on I street. The affair was entirely of a non-political character, and was the occasion of bringing together many of Mr. Bryan's old friends and acquaintances. Before the banquet there was a general reception, in which the guest of honor was introduced to those who attended.

At the head of the table sat Mr. McLean and Mr. Bryan, while at the other end were Senators Jones of Arkansas and Teller. A portion of the Marine band under Prof. Fancuelli rendered a delightful program.

Covers were laid for 100 guests. Besides those mentioned, the list included the following: Vice President Stevenson and Senators Hill, Murphy, Gallinger, Daniel, Blanchard, Cockrell, Gibson, Bate, Morgan, Blackburn, Stewart, Turpie, Gray, Call, Gorman, Martin, Walthall, Faulkner, Cameron, White, Butler, Allen, Chilton and Bacon; ex-Senator Kellogg; Representatives Bartlett, Wheeler of Alabama, Bailey of Texas, Sorg, Richardson of Tennessee, Wadsworth, McMillin, Money, Swanson, Grosvenor, Towne, Newlands, Sayers, Berry and Cummings, Lawrence Gardner and Justice Hanger.

THE DAUGHTERS IN A ROW.

An Exciting Debate Over Publication of the Minutes.

WASHINGTON, Feb. 25.—The session of the sixth continental congress of the national society of the Daughters of the American Revolution opened with the singing of "America" by Miss Virginia Goodwin of this city, early developed into a protracted fight over the publication of the minutes of the national board. The question waxed warm for almost two hours. It was precipitated by a resolution offered by Mrs. H. M. Boynton of Washington to publish the full proceedings of the board in loose leaflets instead of in the magazine.

The faction favorable to the magazine won for the time being by finally deferring action until tonight.

PETTIGREW GOT SCORED.

Hoar Arraigned For Attacking the Place of His Birth.

WASHINGTON, Feb. 25.—A sensational episode occurred in the senate during the consideration of the Indian bill. Several of the New England senators had criticised various items. This aroused Mr. Pettigrew (S. D.) in charge of the bill, to some caustic recitals of the barbarities practiced against Indians in Massachusetts in the early days. Mr. Hoar (Mass.) defended his state, and amid impressive silence arraigned Mr. Pettigrew, a New Englander by birth, for "befouling the nest in which he was born."

At Lawrenceburg, Ky., there have been fears for the safety of the big government dyke built since 1884 for the protection of that city. At Portsmouth washouts have stopped the use of two railroads—the Norfolk and Western and the Cincinnati, Portsmouth and Cincinnati.

Here, in Cincinnati, exposed business houses have secured themselves against further inconvenience. All railroads trains here are running from their depots except those using the Grand Central, and they now start from Eighth street.

PITTSBURG, Feb. 25.—Devastation and ruin marks the flooded districts about the two cities and throughout the Monongahela and Ohio valleys. The cold wave added to the misery of the hundreds of families in the submerged districts who have been rendered temporarily homeless by the flood.

There was a fall of 14 degrees in about 16 hours. A heavy coating of ice has been left in all districts, as well as large deposits of mud. It is almost impossible to estimate the amount of damage which has been sustained, but conservative rivermen placed the amount at \$500,000. This amount includes the loss to wage-earners who were forced to idleness by reason of the mills shutting down on account of the high water.

The public safety and charity departments of the two cities are doing everything possible to alleviate suffering. Provisions and coal have been provided for many people in the flooded districts who are unable to get away from their homes.

The Allegheny is falling at all points except Oil City and Parker's Landing, where only slight rises took place. This will not affect the stage of water in this city. The Monongahela river is falling at all points, and all danger in this city is passed for the present. There is the greatest apprehension in the Ohio valley, however, for the river is rising at all points from the Beaver dam to Cairo. At Cincinnati there is over 60 feet of water, and still rising.

SHENSVILLE, Feb. 25.—Houses along the river in the lower part of the city are flooded. The residents of Water street, in the main part of the city, are relieved to know that the water will stop within a foot of their homes. Traffic has been suspended on the Wheeling and Lake Erie for a time. The trestle below Mingo is reported floating. For a mile below Mingo there is a foot of water on the Cleveland and Pittsburgh track. An Empire no school is being held as the building is surrounded by water. At Allikana it is reported that backwater in Wills creek has flooded houses, compelling people to vacate.

CINCINNATI, Feb. 25.—Dispatches from river points show deaths resulting from the flood as follows: Pineville, Ky., two mountaineers and a revenue man drowned; Grafton, W. Va., William Tate, Baltimore and Ohio fireman, drowned; Middlesboro, Ky., James Charwell, wife and four children, drowned; Keystone, W. Va., Wade, druggist, drowned; Sparta, Ky., Chas. Holton, bank clerk, drowned; Breathitt county, Ky., Mrs. Hutzell's little daughter drowned; Bell county, Ky., two men drowned; Bluefield, W. Va., Sylvester Waters, teamster, drowned in Clear creek; Donkeyville, Ky., Jonas Tyree, drowned in Powell river.

WARM WELCOME TO BRYAN.

Republicans and Democrats Greeted Him on His Visit to the House.

WASHINGTON, Feb. 25.—William Jennings Bryan, late Democratic candidate for president, received a hearty welcome on his visit to the house. He had come to the city to attend a dinner given in his honor by John R. McLean, of The Cincinnati Enquirer, and as an ex-member was entitled to the privilege of the floor. He came into the hall with Mr. McMillin of Tennessee, Mr. Maguire of California, Mr. Sulzer of New York, and ex-Congressman George Fred Williams of Massachusetts. He was immediately escorted to the cloak-room where the Democrats rushed back to meet him. After a few minutes he emerged and walked calmly down the aisle to his old seat near the center aisle. The Democrats gave him a round of hearty applause, the people in the galleries craned their necks and took up the demonstration. There were several wild shouts. He was surrounded on all sides. Many of the Republicans joined in the welcome to their old colleague.

The first was Judge Strode of Nebraska, his successor in congress. Among the others were Messrs. Hitt of Illinois, W. A. Stone of Pennsylvania, Dalzell of Pennsylvania and Dooliver of Iowa. The confusion became so great that Speaker Reed was forced to call the house to order. After a few minutes Mr. Bryan made his way back of the rail which divides the seats from the lobby around to the speaker's rostrum, where he shook hands with the speaker. The galleries again joined in the demonstration which occurred at this juncture. Mr. Bryan soon after left the house.

McLEAN'S BANQUET TO BRYAN.

Distinguished Republicans and Democrats There as Guests.

WASHINGTON, Feb. 25.—The banquet which brought William J. Bryan to Washington was given him last night by John R. McLean at his handsome residence on I street. The affair was entirely of a non-political character, and was the occasion of bringing together many of Mr. Bryan's old friends and acquaintances. Before the banquet there was a general reception, in which the guest of honor was introduced to those who attended.

At the head of the table sat Mr. McLean and Mr. Bryan, while at the other end were Senators Jones of Arkansas and Teller. A portion of the Marine band under Prof. Fancelli rendered a delightful program.

Covers were laid for 100 guests. Besides those mentioned, the list included the following: Vice President Stevenson and Senators Hill, Murphy, Gallinger, Daniel, Blanchard, Cockrell, Gibson, Bate, Morgan, Blackburn, Stewart, Turpie, Gray, Call, Gorman, Martin, Walcott, Faulkner, Cameron, White, Butler, Allen, Chilton and Bacon; ex-Senator Kellogg; Representatives Bartlett, Wheeler of Alabama, Bailey of Texas, Sorg, Richardson of Tennessee, Wadsworth, McMillin, Money, Swanson, Grosvenor, Towne, Newlands, Sayers, Berry and Cummings, Lawrence Gardner and Justice Hanger.

THE DAUGHTERS IN A ROW.

An Exciting Debate Over Publication of the Minutes.

WASHINGTON, Feb. 25.—The session of the sixth continental congress of the national society of the Daughters of the American Revolution opened with the singing of "America" by Miss Virginia Goodwin of this city, early developed into a protracted fight over the publication of the minutes of the national board. The question waxed warm for almost two hours. It was precipitated by a resolution offered by Mrs. H. M. Boynton of Washington to publish the full proceedings of the board in loose leaflets instead of in the magazine.

The faction favorable to the magazine won for the time being by finally deferring action until tonight.

PETTIGREW GOT SCORED.

Hoar Arraigned For Attacking the Place of His Birth.

WASHINGTON, Feb. 25.—A sensational episode occurred in the senate during the consideration of the Indian bill. Several of the New England senators had criticised various items. This aroused Mr. Pettigrew (S. D.) in charge of the bill, to some caustic recitals of the barbarities practiced against Indians in Massachusetts in the early days. Mr. Hoar (Mass.) defended his state, and amid impressive silence arraigned Mr. Pettigrew, a New Englander by birth, for "befouling the nest in which he was born."

WELLSVILLE.

WELLSVILLE GOT WET

But Little Other Damage Was
Done by the Flood

TRANSFERRING AT THE TRESTLE

Cars Are Not Yet Allowed to Cross—Water
Backed Into the Lower Part of Town—A
Building Boom Is Sight—The Car Shops
at Work.

The high water is going almost as fast
as it came, and the damage it caused
was not over estimated in the News
Review yesterday.

The water did not reach that low part
of the city between Hill and Wood
streets until after the water in the chan-
nel began to recede. At the foot of
Ninth street, next to the hill, it rose until
it reached a depth of about four feet,
doing very little damage, and this was
due only to the backing up of the river
to the culvert under Third street. All
the water west of this was from the hill
streams. On account of rubbish and the
general wash of the river the pumps at
the water works were shut down, and
Superintendent Fogo anticipating a good
rise in the river early this spring had
filled the reservoir. The city is well
supplied with clear water, yet all
patrons are requested to use it sparingly
until the river goes down, when the
pumps will be put in operation again.

Early this morning the street railway
line resumed operations, and today cars
are running as near on time as possible,
although they are transferring in the
East End. Passengers are obliged to
cross the bridge afoot. It is entirely safe
for pedestrians to cross the trestle, but
Superintendent Andrews has not per-
mitted cars to cross. The greatest dam-
age was to the trestle at the west ap-
proach. Here the track was twisted and
elevated three feet. The company will
continue transferring at this point until
all repairs are made. It will take sev-
eral days.

The manufacturing establishments
were not damaged by the flood, and
none but people working in East Liver-
pool were prevented from carrying on
their daily work. Beyond the damage
done by the average flood, there is little
to speak of. The water has fallen 10 feet
since yesterday, and many people are
moving back into their homes. The flood
caused no particular suffering.

NEW BUILDINGS.

Wellsville Will Have a Pronounced
Boom.

There is abundant talk of building in
the city during the coming season. It
is said that Thomas Silver will soon
have a force at work rebuilding the
Commercial Hotel on the square. No
particulars are given out, but the News
Review is in position to state that a
modern hotel, filled with the latest im-
provements will soon take the place of
the old building.

In the same block Mr. Smith will im-
prove his property. A new front will
be placed in position, and the building
overhauled. The Wells building will
be erected at the corner of Twelfth and
Main streets. It will be a handsome
structure. The foundation was com-
pleted some time ago. A number of
residences will be built, and if times im-
prove many will be built here during
the summer.

CHEERING NEWS.

The Car Shops Will Start Tomorrow Morn-
ing.

The cheering intelligence has been re-
ceived that the Cleveland and Pitts-
burg car shops will be in operation
bright and early tomorrow morning.
The appropriation for the coming month
has been made, and it is expected that
steady work will be the result. Twenty-
five men reported for duty yesterday,
and the other two-thirds will have
checked up before tonight. Any num-
ber of the employees had become de-
pendent, but the last news has caused
a general expression of cheer and satis-
faction.

The News of Wellsville.

ROBINSON CHANGED HIS MIND.

Costs.

John Robinson, whose saloon in
Seventh street was raided by the
police at an early hour Sunday
morning, was before Mayor Gilbert last
night. Robinson when arrested de-
cided to plead not guilty, but when the
time for hearing arrived he changed his
mind, and accepted the inevitable.
He got \$15 and costs for his fun, and
paid it. Al Jackson, Matt VanFossen,
K. Hanlon, W. Zook, W. Lee, Webber
and Randolph, parties who were
in the place when the officers
appeared, were each assessed \$9.60. The
cases wind up the rush of business
brought out by the raids of Saturday
and Sunday.

NEXT WEEK

The Bridge Will Be Finished and Work-
men Will Go Home.

A small force of workmen are putting
the finishing touches to the bridge, and
in a week it will have been completed.
Hoods were placed in position today,
and the work of painting the truss will
be finished this week. That winds up
the work at present, and the bridge can
be said, when it is done, to be com-
pleted. More painting will be done
next spring.

THE POOR COST MONEY

But Not as Much This Month
as Last.

MORE THAN A YEAR AGO

The Report of the Trustees Shows a Fall-
ing Off in the Amount of Relief Given
Out—The List Still Contains Many
Names, but It Will Grow Smaller.

The township trustees have made up
their report for the month, and find that
less money was expended for the relief
of the poor in February than was given
out in January.

The report for January gave the
expedition of \$64.26 of county funds,
and \$198.29 came from the township
treasury. This month the trustees spent
for the county \$57.69 and for the town-
ship \$173.84. In February of last year
poor relief cost the county \$24.33 and
the township \$293.96. There are still a
large number of persons receiving relief,
but it will not be long until a great many
of them will be off the books, and the
expenses of the trustees will be materi-
ally decreased. The showing made
this month is caused by the extreme cold
weather of a few weeks ago when the
trustees were compelled to pay out a
large amount of money for coal which
was sent to people who had no money to
buy fuel. The trustees are preparing to
observe the new law, but are still of the
opinion it will not work in this county.

Steering clear of
the shoals of ill
health and the rocks
of disease is easy
enough if only the
digestion be kept in
good order. It isn't
often any one is
sick unless they
have indigestion.
The commonest way
in which indigestion
shows itself is in
constipation.
Nine people in ten
are troubled more
or less in this way.

Nine-tenths of all the world's sickness is
caused by this one trouble. Sleepless-
ness, pimples, blotches, headaches, sour
stomach, dizziness, "heart-burn," palpi-
tation, biliousness, distress after eating—
all these are merely symptoms of constipa-
tion. Why do people suffer with them
when the cure is so simple and so easily
obtained? Years ago, Dr. Pierce's Pleas-
ant Pellets were placed on the market.
Since then, there has been no excuse for
anybody to suffer from constipation, and
its attendant ills. The "Pellets" cure
every case infallibly and permanently.
They are very small, easy to take, gentle
and quick in action. They are not at all
violent; they do not disturb the system.
They cure you so you stay cured. Thou-
sands of women will find if they take the
"Pleasant Pellets" that their ills will
vanish with the constipation.

The People's Common Sense Medical Adviser
gives more plain useful information about the
human body and all the ailments
to which it is subject than any
other single book in the English
language. It is really a medical
encyclopedia in one volume, a
large heavy book of 1000 pages,
with over 500 illustrations. The
outlay of money, time and effort
in producing this great book was
paid for by the sale of the first
edition of 60,000 copies at \$1.50
each, and the profit has been
used in publishing the present
edition of half-a-million copies to be sent abso-
lutely without price to all who will remit the
small charge of 21 cents in one-cent stamps to
pay the cost of mailing only. Address, with
stamps, World's Dispensary Medical Association,
No. 563 Main Street, Buffalo, N. Y.

SHE READ THE PAPERS.

What Befel a Resident Who Acted
Upon a Plan Suggested from
Reading a Newspaper Item.

When the east end of the corporation
was called Ohio City, long before the
street cars connected it with East Liver-
pool, when residents out there either
walked, rode or took the railway to go
to the city, Mrs. Mary A. Hewitt, who
now lives on St. George street, was a
resident. If not personally known to
everyone in East Liverpool, it is an easy
matter for anyone interested to verify by
an interview the facts contained in the
following statement. Testimony from
people we know, whom we can depend
upon, is away ahead of a long-winded
account of some cure that is said to have
taken place in some remote part of the
Union. What follows is East Liverpool
evidence for East Liverpool people. Read
it. Mrs. Hewitt says: "About six
months ago I read in the Pittsburg Press
an account of some one that had been
cured of kidney disease in that city by
using Doan's Kidney Pills. The fact of
such an account being published of one
living in almost the same place had a
tendency to convince me that there must
be some truth in it, and I determined to
try them myself. Some years ago I had
a very severe attack of rheumatism. For
three months I lay helpless, and since
then I have had trouble with my kidneys.
For a year I suffered severely. My back
was so bad that it felt as if I had a bad
boil where the kidneys are. I could not
bend over, lean back against a chair, or
reach up. I could not lie on my back,
and about every move I made caused
pain. I had taken numerous remedies,
but none brought the desired relief,
while Doan's Kidney Pills did what no
other remedy was able to do. I took
them regularly for a short time, and
found them to be all that the Pittsburg
paper stated them to be. I can heartily
recommend them. Since using them I
am rid of the backache and other symp-
toms of kidney disease, and could not
feel better." Plenty more such testi-
mony as this is being published here in
East Liverpool daily. Drop into the W.
& W. Pharmacy and ask them what their
customers say. They always keep a
stock on hand.

Doan's Kidney Pills are for sale by all
dealers. Price 50 cents per box, or sent
by mail on receipt of price. Foster-

fants and children yearly die of mem-
branous croup. We do not exaggerate
